

Baumann Dekor offers upholstery and decoration fabrics with odour-neutralizing effects

Lean back and relax – We provide for the fresh air in all your rooms

Odours sometimes are perceived as quite nasty, particularly the smoke of cigarettes. Even ventilation will bring no relief.

Now **Baumann Dekor's BFresh™** offers the **perfect solution** for private homes as well as for hotels restaurants, casinos, etc. This technology catalytically converts odorous substances and harmful substances such as formaldehyde, smoke, etc. into **sub-critical substances** and thus eliminates them. Moreover, the treatment prevents textiles from absorbing odours.

BFresh™ is a technology that can be applied on almost **any of our standard and Trevira-CS fabrics**. I.e. you can select from the whole range of Baumann Dekor's designs and colours.

BFresh™

- Is permanently antibacterial
- Actively eliminates bad odour and harmful substances
- Will not cause allergic reactions
- Uses **natural UV light** and therefore is always active
- Its effectiveness is **medically** proven
- Is **harmless** for man and beast
- Is **permanent**
- Helps to reduce washing cycles
- Is perfectly suitable for use in hotels, private homes, appartments, hospitals, residential care homes and nursing homes, restaurants and bars, offices, public buildings
- Actively prevents the textiles from absorbing odours
