

Four Seasons Hotels and Baumann Dekor – partners with one single aim: complete satisfaction of our customers' wishes.

In order to achieve this objective, Four Seasons Hotels pay much attention to the selection of their partners. That's why we at Baumann Dekor feel extremely proud that we have been trusted with the redecoration and redesign of all guest rooms and suites against strong international competition.

Our fabrics for curtains, bedspreads and upholstery now contribute to the calm, relaxing yet sophisticated ambience that will make any customer feel at home.

In addition to delivering the products, we assisted the hotel management throughout the complete project – from the first ideas to the final stitches and made sure that everything was carried out to their full satisfaction within the shortest possible time.

In-house design, full step production including weaving, printing, dyeing, finishing, and our longstanding experience in professional planning and consulting enable us to react quickly to our customers' particular requirements.

The feedback of our customer proves that our approach is a perfect match with the contract business:

*„We have been working with Baumann Dekor for many years because their fabrics are definitely of very high quality. But what is also very important for us is that they understand the particularities of hotel business. They really do adjust to our requirements with regard to design and colour and deliver best value for money. Quality and consistency – these are the main reasons why we select Baumann Dekor.“*

Christos Mouskis, Owner, Hotel Four Seasons Limassol
