CHARISMA OUTDOOR

- High-quality fabrics for outdoor use in bright colours and modern designs
- Even under direct exposure to the sun, the brilliance of the colours will not fade
- Areas of application:
 - Gardens and terraces
 - Wintergardens
 - Pool areas
 - Yachts
 - High-traffic inside areas (hotels, resorts, spas, wellness)

Benefits

- Wide range of colours and designs
- UV-resistance
- Colour and light-fastness
 - Grade 7-8 out of 8 (ISO 105-B02).
- Weatherproof
- Resistant to abrasion
- Resistant to chlorine, salt water, sweat
- Resistant to mildew, mould, fungus, and insects (moths)
- Resistant to staining
- Easy to care
- Highly durable

Outdoor x 2

- To meet the different requirements of our customers, we decided to offer two versions:
 - Use of special spin-dyed yarns:
 - ✓ In the spin-dyeing process the colour pigments are firmly integrated into the yarn
 - ✓ Particularly suitable for outdoor use in regions where the humidity of the air is high
 - Special treatment of Trevira-CS fabrics:
 - ✓ A special finishing process is applied on Trevira-CS upholstery and decoration fabrics
 - ✓ Therefore, the complete range of designs and colours is available
 - ✓ Permanent flame-retardancy
 - ✓ This makes these fabrics particularly suitable for high-traffic areas in hotels exposed to intense sunlight
